NAVSUPPACT NORTHWEST ANNEX INSTRUCTION 8023.1

Subj: HAZARDS OF ELECTROMAGNETIC RADIATION OF ORDNANCE

Ref: (a) NAVSEA OP 3565/NAVAIR 16-1-529, Volume II, 13th
revision of 1 May 04
(b) NAVFAC 1101/31

Encl: (1) Ordnance List
(2) Ordnance Waiver

1. Purpose. To promulgate the policies and procedures concerning the Hazards of Electromagnetic Radiation of Ordnance (HERO) program onboard Naval Support Activity, Northwest Annex (NSA Northwest Annex).
2. Discussion. Enclosure (1) provides a list of all ordnance items that are handled, transported, or stored on this base. Per reference (a), a review of these items and HERO classifications was conducted and the results showed that there are no ordnance items containing Electrically Initiated Devices (EIDs) onboard NSA Northwest Annex, so HERO Emission Controls are not necessary at this time.
3. HERO Survey Waiver. The Naval Ordnance Safety and Security Activity (NOSSA), N84, 23 Strauss Avenue, Indian Head, MD 20640-5555 granted a HERO survey waiver to NSA Northwest Annex, which expires 2010. If the mission of this base or any tenant command changes to include operations involving ordnance containing EIDS, then the waiver is voided and the base is subject to the requirements cited in reference (b). Prior to ordnance containing EIDs being brought onboard the base, contact and provide the DOD authority, Explosive Safety Support Office Atlantic (ESSOLANT), 1287 CV Tow Way Drive, Bldg. R50 (Suite 200), Norfolk, Virginia 23511-3322 or call (757) 445-0812 with detailed ordnance information. ESSOLANT will then formulate specific and appropriate guidance for HERO Emission Control. Refer to reference (a) for specific contact information.
4. The Explosive Safety Technical Manual (ESTM) CD-ROM contains electronic copies of various ammunition safety references, including the current revision of reference (a).

NAVSUPPACTNWINST 8023.1
25 Jul 05

Users can check out the CD-ROM from the NSA Northwest Annex Administrative Office.

5. Action. This instruction shall be followed by all tenant commands and storefronts that handle ordnance and/or are responsible for overseeing the safe execution of ordnance operations.

6. Responsibilities

a. The Officer-in-Charge (OIC), and Weapons Officer shall:

1. Be responsible for ensuring that the base is in compliance with reference (b).

b. The Explosives Safety Officer (ESO) will determine the appropriate level of compliance per current references as they pertain to ordnance safety onboard NSA Northwest Annex. He or she will track and monitor all future ordnance handling and storage location changes. Further, the ESO shall:

1. Coordinate the NSA Northwest Annex HERO Program.

2. Verify and maintain current tenant command information at enclosure (1).

3. Ensure all future ordnance changes onboard NSA Northwest Annex are submitted for HERO review. Contact Naval Ordnance Safety and Security Activity (NOSSA), N84, for all questions concerning HERO.

Subj: HAZARDS OF ELECTROMAGNETIC RADIATION TO ORDNANCE
WAIVER FOR NORFOLK NAVAL SUPPORT ACTIVITY NORTHWEST ANNEX, VIRGINIA
Ref: (a) NAVSEA OP 3565/NAVAIR 16-1-529, Volume 2, Thirteenth Revision of 1 May 04
Encl: (1) NAVSURFWARCENDIV Dahlgren ltr 8020 Ser J52/4823 of 14 Feb 05

1. In response to your request, a five-year Hazards of Electromagnetic Radiation to Ordnance (HERO) waiver is hereby granted for Norfolk Naval Support Activity (NSA) Northwest Annex, Virginia.

2. Enclosure (1) provides the justification for this waiver. The five-year HERO survey waiver will expire in 2010; at that time, a survey must be conducted to re-establish the electromagnetic environment baseline for your activity. If the facility's ordnance configuration changes before 2010 and the facility starts maintaining ordnance items that contain electrical initiated devices, this office must be notified immediately.

3. The Naval Ordnance Safety and Security Activity point of contact is Mr. Charles L. Wakefield (N84) on DSN 354-6082, commercial (301) 744-6082, or email: charles.wakefield@navy.mil.
